Estelí, Nicaragua 

## Summary

**Hello, this is Alex!** I am a **frontend** developer with over **10 years of experience** in the industry. I have built numerous websites using WordPress for international clients and local businesses. Over the past two years, I have collaborated on projects with **React** and React Native, taking on a comprehensive role that includes UX/UI design and coding.

## Experience

### • Frontend Developer | Freelance | July 2021 - Present

My recent freelance projects include two applications for local companies, developed with **React Native** (Android OS) and **TypeScript**. In these projects, I worked with a backend developer to ensure seamless API integration. During this time, I also created websites for other clients using **WordPress**, WooCommerce, and Astro.

### • Frontend Dev. | Brokerland, Seville - Spain (Remote) | Nov. 2018 - July 2021

My responsibilities at Brokerland included creating informative websites, dynamic web applications and online stores using **WordPress** and WooCommerce. I also implemented service request forms using **React**. Additionally, I developed an inventory management and control systems using the Laravel Framework, MySQL, Bootstrap and **JavaScript**.

### • Graphic Designer and Frontend Dev. | 2014 - Oct. 2018

In this period, I primarily worked as a graphic designer. Over time, I transitioned into **web design** and **programming**, taking freelance projects for different business. These were my first experiences as a junior developer, where I improved my skills in both design and **frontend** development.

## Skills

**Frontend:** HTML, CSS, Tailwindcss, JavaScript, TypeScript, ReactJS, WordPress.

### **Backend**

NodeJS, Mysql.

### **Frameworks**
